

Joyride

Lucius

Salty hair
Squinty eyes
Rearview mirror with the fuzzy dice
I'm joyriding

Swaying like
A ticking clock
I been going and I won't stop
'Til I feel like it

I want it all for myself
And nobody else
We go together, skin and leather
Rumble like a cat
Asleep on my lap
We go better, better together

Jaime sleeps on the grass
Dreaming as the clouds roll past
I'm joyriding

Annie's barefoot, gone insane
While Daisy drags her by her daisy chain
And Ray works hard on his camper van
The kids line up for the ice cream man

I want it all for myself
And nobody else
We go together, skin and leather
Rumble like a cat
Asleep on my lap
We go better, better together

(It's like a ride on the couch, with a J in your mouth)

I want it all for myself
And nobody else
We go together, skin and leather
Rumble like a cat
Asleep on my lap
We go better, better together

I want it all for myself
And nobody else
We go together, skin and leather
Rumble like a cat
Asleep on my lap
We go better, better together
