

LSD

Lucius

I feel your eyes on me
I don't even have to turn around
I've got a rear view mirror
And I'm looking straight into the fire

Not gonna stop it now
Losing my will, already lost my mind
I've spent too long running
But I won't run it down to the wire

Waiting on the nights like a wolf, I count down the days
Now I can't eat, I can't sleep
I hallucinate, LSD
Love so deep

I'm under your control
Going into the animal
Hungry heart follow me in the dark

Lost in the physical
And it feels almost criminal
Hungry heart follow me in the dark
Hungry heart, no stranger to the stars

I'm not looking to escape this
I just wanna break it in
Yeah, you know the way
I'll be the prey the chase can't give up

Waiting on the nights like a wolf, I count down the days
Now I can't eat, I can't sleep
I hallucinate, LSD
Love so deep

I'm under your control
Going into the animal
Hungry heart follow me in the dark

Lost in the physical
And it feels almost criminal
Hungry heart follow me in the dark

Hungry heart
Hungry heart

I'm under your control
Going into the animal
Hungry heart follow me in the dark

Lost in the physical
And it feels almost criminal
Hungry heart follow me in the dark
(Love so deep)

Hungry heart
(I can't eat, I can't sleep, I hallucinate)
Hungry heart

(LSD
Love so deep)

Hungry heart follow me in the dark
