How can a touch be atomic?
How can a look split the sky?
Why does the Earth get so quiet?
Ascending up a stairway to Heaven
Swimming in the dead of the night

I'm calling out your name
A desert that needs the rain
It's you
The wild and holy window to the truth

When do I know it's hypnotic?
If I'm already caught in the tide
How do you rattle the climate?
Feeling like a wind to a flame
When you whisper and the world ignites

I'm calling out your name
A desert that needs the rain
It's you
The wild and holy window to the truth

It's you, it's you

Secret inspiration
Perfect combination, lock and key
My gentle fixation
It's an invitation to my fantasy
Secret inspiration
Perfect combination, lock and key
My gentle fixation
It's an invitation to my fantasy

I'm calling out your name
A desert that needs the rain
I'm calling out your name
A desert that needs the rain
You
The wild and holy window to the truth

It's you, it's you

You, you
