

Stranger Danger

Lucius

It's so cold
I feel it in the backbeat
Covered up
With a nice warm melody
Put the kettle on
Sit and watch the tv
Write another song
In another key

People talk
They never really mean it
Walk the walk
Whenever it's convenient
Turn the other cheek
If the money's lookin' greener
Where's the empathy
When you need it?

Stranger danger
Losing touch with Mother Nature
Who is gonna be her savior?

What is home?
Possessions or the feeling?
Add one on
Start to hit the ceiling
Further from the truth
Closer to revealing
The damage has been done
And now what?

Stranger danger
Losing touch with Mother Nature
Who is gonna be her savior?

Going through the motions (going through the motions)
I'm a little frozen now (I'm a little frozen)
Feeling (feeling) numb

Going through the motions (going through the motions)
Looking for a reason now (looking for a reason now)
Feeling (feeling) numb
Feeling numb

Going through the motions (going through the motions)
I'm a little frozen now (I'm a little frozen now)
Feeling numb

Going through the motions
Looking for a reason now
Feeling numb
Feeling numb
Feeling numb

I'm a little frozen (I'm a little frozen)
Can't make up my mind
Feeling numb

I'm a little frozen
Can't make up my mind
Feeling numb
