Lil' baby left me sick, that's cool

Lil' baby left me sick, that's cool  
Wait 'til the summer, I won't remember the money  
I was the one in the straight  
Felony plates, took a lil' shot at my face  
Pop, he know he raised a beast  
Stay in my lane, I can't help runnin' the streets  
Tryna remember her name  
Passenger seat, I might just give her the key  
Thought I was done with drugs, now you want somethin' from me  
Flawless Lucki, how much more with tax? But I thought love was free  
Skippin' town, karma on my back, why she stalkin' me  
Foxy Brown, powerful as dope, she write my song for me  
Music to her ear, she say you slime to me  
I'm right under your nose, I've been hard to reach  
We can raise hell in the summer, and I got God in my corner  
Got a gang of niggas that'll kill for me  
They hate when I say I'm a loner  
Lil' baby left me sick, that's cool  
Wait 'til the summer, I won't remember the money  
I was the one in the straight  
Felony plate, took a lil'—
