

NEPTUNE V.S INDUSTRY

LUCKI

I'm working on dying

Ain't no car I ain't been this week
You been talking yo shit, niggas can't get sleep
Real geeked boy in the industry
And a broke bitch rumor can't finish me
"Got no flaws how you feel that way?"
Real geeked boy but not ecstasy
Real geeked boy but not ecstasy
Real geeked boy but not ecstasy
Vroom vroom down Lakeshore that's me
290 boy but they love me at East
Skyway Toll way just for the drink

Got my heart but it's fuck what you think
Fan ass nigga with a cup cause of me
Thouxanban now fucked up cause of me
Tell you once if you love me reach
Outta town worrying about what's going on in the streets
Want my heart but its all in a puzzle
Only be with Pit's and they all need a muzzle
She so pretty but it feel like trouble
'Bartier tint, and I still see double
"Got no flaws how you feel that way?"
Really wanna love you but you MIA
Internet gangs like school shit to me
Fan ass nigga probably do it to me
Where I come from, they love fully's and Jeeps
Not scared of the dark, got Boogie with me
No love lost, but that bullshit will creep
Won't put it past blood, you'll do it to me

Real geeked boy in the industry
And a broke bitch rumor can't finish me
"Got no flaws how you feel that way?"
Real geeked boy but not ecstasy
Real geeked boy but not ecstasy
Real geeked boy but not ecstasy
Vroom vroom down Lakeshore that's me
290 boy but they love me at East
Skyway Toll way just for the drink
Got my heart but its fuck what you think
