

# New Life

LUCKI

Nash Effect

I put money up over my heart, I give that back to a bitch it's nothing  
My homie say Luck don't start, Gooshy lovey dove shit is frontin'  
I be like bruh, you don't know a thing, I been in and out of these thoughts  
My whole life I been looking for protection, I been in and out of these vaults  
You ain't even know it's a whole cold world for a hot young nigga with a rum  
little heart  
You ain't even figure that I'm Usain Bolt going on a little run tryna track  
my thoughts  
Ain't no simp no bitch I live I let these wild little thots run free  
Ain't no simp no bitch I live just keep them drugs and guns for me  
Ain't tryna Kurt Cobain myself, too much to give on up  
I probably die from breaking these backs, ain't talking sit ups  
And all these little dumb hoes want rings, so I just pick up  
And this rap shit might hold me down, so I just live it up

Drugs and Guns are my new life that's straight with me  
Don't waste no time Don't waste no thoughts  
So please don't try to pray for me (don't do it)  
Drugs and Crime are my new life that's straight for me  
Don't waste no time Don't waste no thoughts  
So please don't try to pray for me (don't do it)  
(Na don't do it, don't do it)  
Drugs and Crime are my new life that's straight for me  
Don't waste no time Don't waste no thoughts  
So please don't try to pray for me

Batman's on a rap sheet  
Most blogs never heard of me  
Burn tree on a back street  
Tryna keep these fuckin herds from me  
For' my momma got some words comin'  
Cause she heard he used to serve rummus  
I'm a son in a beast belly  
Man this city got a long stomach

Why they can't digest it?  
Throw a party when I'm gone  
Can a nigga die festive?  
All peers like let's dance  
Petty pound to a fed case  
Tryna die impressive  
Niggas thuggin in the party like  
Niggas really wanna die over party life?  
Cook a fed niggas curfewz  
Every bad seed wanna merk you  
Put you on ground, earth food  
Pops said, "lil nigga I'm a hurt you  
Cause you spouse live for a better purpose  
Make no mistake I ain't perfect  
A nigga got flaws, but I'm worth it."  
Only hit my line when It's worth it  
Cause you know petty niggas pick a sack up  
You know I need back up  
Wanna pray but you judge I don't need that back uh

Drugs and Guns are my new life that's straight with me  
Don't waste no time Don't waste no thoughts  
So please don't try to pray for me (don't do it)  
Drugs and Crime are my new life that's straight for me  
Don't waste no time Don't waste no thoughts  
So please don't try to pray for me (don't do it)  
(Na don't do it, don't do it)  
Drugs and Crime are my new life that's straight for me  
Don't waste no time Don't waste no thoughts  
So please don't try to pray for me
