

Time Wasted

LUCKI

I'm better than all these niggas
Any nigga that you get, I'll out-bar him
And if I get the right space, I'll prolly out-star him
These just simple rap thoughts and half thoughts that I find
On my lab notes, math notes in class I waste time
On them assholes, anything I learn I just forget it
But what I know, in a few years I might regret it
The honor roll, a little more effort I might get it
My momma-ro put pressure on, bottom of ninth inning
And I'm a young nigga, living in the O who thought of that
Just get money, flash later, squad taught me that
When heat come, niggas turn soft, Bosh taught me that
So with that said, in my head, thought I should probably rap
But that's any negro thought, that's what any nigga think
Either ball, go to school, or rap, or parlay in the streets
When it call these niggas shooting crap, these dice be ways to cheat
When it call these niggas shooting crap, these dice be ways to cheat

I figure this rapping shit just to stop me
I love it more if it drop me
I'm wasting my time just watch me
I figure this rapping shit's just to stop me
I love it more if it drop me
I'm wasting my time just watch me
Uh, I'm wasting my time just watch me
Yeah, I'm wasting my time just watch me
I figure this rapping shit just to stop me
I love it more if it drop me
I'm wasting my time just watch me

Cause maybe drama just my thing or I should always just be high
Or get a shrink, but until then I'm just gon' always just be high
I mean they treat me like a king, but I honestly don't see why
I just be rapping 'bout them drugs, so they must always wan' be high
Like what the fuck, cause since people listen, that bring more pressure
Small shit I say even getting a little bigger
I guess they mad they not on that cheese, they tryna catch up
Guess they mad they not on that cheese, they tryna catch up

I figure this rapping shit just to stop me
I love it more if it drop me
I'm wasting my time just watch me
I figure this rapping shit's just to stop me
I love it more if it drop me
I'm wasting my time just watch me
Uh, I'm wasting my time just watch me
Yeah, I'm wasting my time just watch me
I figure this rapping shit just to stop me
I love it more if it drop me
I'm wasting my time just watch me
