

Good Luck

Lucky Boys Confusion

Got a varsity letter?
Screw em, we get endless memories
Playing songs together
Keeping up all of the neighbors on your street
And if we burn out fast
Come whatever
Summer songs will last
That's forever
Now and forever, good luck

They skipped off to college
We got a van from a record company
Punk rock and the polish
Motel whiskey singing me to sleep
People pass, some will change and some will never
Summer songs still last forever
That's forever
Now and forever, good luck

Will we get close and burn out?
Or fade away with the crowd?
Take to the rooftops and shout!
Life is what we make it!

Burned out, they call us
Screw 'em, we got endless memories
Punk rock and the polish
I hope it gave you something to believe
If we burn out fast
Don't surrender!
Summer songs will last forever
That's forever
Now and forever, good luck

Good luck! Good luck!

Now and forever, good luck
