

## It's After Midnight

### Lucky Boys Confusion

Please stop giving me  
Please stop giving the run around  
I'm sick of these rendezvous  
Into the middle ground  
Into the middle, just come around  
I'm sick of these rendezvous  
Please stop giving me  
Please stop giving the run around  
I'm sick of these rendezvous  
Into the middle ground  
Into the middle, just come around  
I'm sick of these rendezvous

It's after midnight  
And I'll drop my guard  
Under the moonlight  
I think I've shown my cards  
Aren't you tired of being angry?  
Aren't you tired of being right?

You stopped loving me right  
Right when I turned around  
Was the chase enough for you  
You took the battleground  
You won the war in a wedding gown  
I'm sick of it all

It's after midnight  
And I'll drop my guard  
Under the moonlight  
I think I've shown my cards  
Aren't you tired of being angry?  
Aren't you tired of being right?  
Maybe it's time to go

You are the drug that is killing me  
My heart has stopped and it won't start beating again  
You are the drug that is killing me  
My heart has stopped and it won't start beating again  
You are the drug that is killing me  
My heart has stopped and it won't start beating again  
You are the drug that is killing me  
I'm just an addict, you're the poison that I love

It's after midnight  
And I'll drop my guard  
Under the moonlight  
I think I've shown my cards  
It's after midnight  
And I'll drop my guard  
Under the moonlight  
I think I've shown my cards  
Aren't you tired of being angry?  
Aren't you tired of being right?  
It's after midnight  
And I'll drop my guard  
It's after midnight

I think I've shown my cards  
It's after midnight now  
Maybe it's time to go
