

Stormchaser

Lucky Boys Confusion

Johnny built a rocket ship
He is getting out of here
When nothing's beautiful
You just want to disappear
But he'll settle for a motorcar
The speed was such a rush
Nothing's beautiful
Out of sight and out of touch

Welcome to life as it is as a stormchaser
Searching for love and blood thinners

Well, show me a falling star
And I'll show you who you are, who you are
Thinking like this can make life dangerous

Jamie had the nerve to quit
She went off like a letter bomb
What's the point in it
When no one wants to sing along?
She settled for him all those years
The fighting and the tears
When nothing's beautiful
You just want to disappear

Welcome to life as it is as a stormchaser
Searching for love and blood thinners

Well, show me a falling star
And I'll show you who you are, who you are
Thinking like this can make life dangerous
Well, show me a falling star
And I'll show you who you are, who you are
Thinking like this can make life dangerous

And I'm tired of being cynical
But it's catching up
And I'm tired of being practical
But it's catching up
And I see the possibilities
But they're catching up to me
Are you catching up to me?

Johnny built a rocket ship
He is getting out of here
When nothing's beautiful
You just want to disappear

Welcome to life as it is as a storm chaser
Searching for love and blood thinners

Well, show me a falling star
And I'll show you who you are, who you are
Thinking like this can make life dangerous
Stormchasers at stars
Find out who you are
Thinking like this can make life dangerous

Thinking like this can make life dangerous
Thinking like this can take life
