Caught in your web
And I tried to kick keep it, secrets
Thoughts of you when you roam my mind

I'm falling in deep
Curious, just hope you CC me
This feelin is killin', so wi-fight online
When you enter in my mind

Lo-key, key
I'm talkin' to you, I know you're freaky
Beautiful heart they say
From side eye to side swipe
Post up, take a pic, I died
Never leave my side
They say stop playin' games in an empty space
But I found love in it anyway

I don't know your name
But I'm lost in a game
Of the algorithm
Of the algorithm
I don't know your name
But I'm locked and chained
