

Extra

Lucky Daye

Your lips are movin
But I don't really understand what you're sayin'
When you talk to me (Just kiss the ring)
You know what you're doin'
And you'd rather not be talkin' to me
'Til when you are with me (Just kiss the ring)

So don't test, it's too hot
Doin' the wrong thing with the right guy
I won't lie, but girl, you tryna make me say so
Baby don't think, right now
Stay up, but lie down
Fight how, know it's so hard to say no

I'm like wow, wow, ain't no need to sell it
You know you don't gotta do extra (Keep your body right there)
And you 'bout to make me do extra (Keep your body right there)
Let's keep goin'
Wow, wow, ain't no need to tell it
You know you get a "A" for effort (Keep your body right there)
You ain't even gotta do extra (Keep your body right there)

Useless motives
And I'm already knowin' what you thinkin'
By how you talk to me (Just kiss the ring)
Now that we rollin'
Goin' far enough to take us away
Before we cut too deep, ooh (Just kiss the ring)

So don't test, it's too hot
Doin' the wrong things with the right guy
I won't lie, but girl, you tryna make me say so
Baby, don't think, right now
Stay up, but lie down
Fight how, know it's so hard to say no

I'm like wow, wow, ain't no need to sell it
You know you don't gotta do extra (Keep your body right there)
And you 'bout to make me do extra (Keep your body right there)
Let's keep goin'
Wow, wow, ain't no need to tell it
You know you get a "A" for effort (Keep your body right there)
You ain't even gotta do extra (Keep your body right there)

Keep your body right there
Keep your body right there
Keep your body right there
Keep your body right there

I'm like wow, wow, ain't no need to sell it
You know you don't gotta do extra (Keep your body right there)
And you 'bout to make me do extra (Keep your body right there)
Let's keep goin'
Wow, wow, ain't no need to tell it
You know you get a "A" for effort (Keep your body right there)
You ain't even gotta do extra (Keep your body right there)

Keep your body right there

I knew it was on when I met her at the bar
We could never turn it off, so we keep it rollin'
Wanted to see my room, never been to five stars
She givin' more than her all, yeah, she overflowin'
Nobody ever did it to her body, I just threw her good vibes
And she threw the vibe right back
Always invite her to the party, let her body do the talkin'
Champagne ain't the only thing drained in this mothafucka'
Know you still around, still real (Oh)
I know you give me somethin' I can feel (For real)
Money keep on stacking to the sky (Stacking, stacking to the sky)
I see it in your eye (Woo)
I'ma give you something you can feel (Feel)
We can go and run around the world
(We can go and run around the world)
Either we runnin' or we gon' die
(Ooh, ooh, ooh, ooh, ooh, ooh)

How many chains do I have to break?
Superman in love with Lois Lane
I'd do everything (You know)
Story told amongst a million men
Let this love be thy greatest sin
Ooh, why you so fly, so hot
When you say love, feel like the very first time, every time
No light could be brighter than yours
Girl, you keep my love blind (You know)
Leaving you would be the worst crime
I would serve a lifetime with metal bars as my room walls
Than to be without you
There's no such thing as without you
Crash from runnin' from your bright lights
Chasin' me too far (you know)
Who's danger?
Walking dumb like I been numb forever
So forever, I bleed the 5th on any of this (you know)
'Cause leavin' you would be the worst crime of all
