

Fever

Lucky Daye

Did you stop my heart? Heard it skip a beat, uh-uh, hey
You should be up under me, can you take the heat? Uh-uh
Come on, my love and take the best, yeah, that much of me
Ooh, baby, come back to me, ooh, come back to me

'Cause I got fever
And don't know how to leave her
Yeah, I got fever
Ooh, I don't know how to leave her
Think I need her
Oh, I don't know how to leave her, yeah
I think I need her
Oh, oh, I don't think I could leave her

On my mind from time and time, workin' with no steady flow
Freak me back and forth, but then no more ocean floor
I been reachin' for you and I won't wanna let go
Mix and match the feeling we could possibly
Maybe, we keep stirrin' up the chemistry
Kissin', huggin', squeezin', I just gotta have you close

Did you stop my heart? Heard it skip a beat, uh-uh, hey
You should be up under me, can you take the heat? Uh-uh
Come on, my love and take the best, yeah, that much of me
Ooh, baby, come back to me, ooh, come back to me

'Cause I got fever
And don't know how to leave her
Yeah, I got fever
Ooh, I don't know how to leave her
Think I need her
Oh, I don't know how to leave her, yeah
I think I need her
Oh, oh, I don't think I could leave her

All night chase you, no lime
Another round to help me pass the time
Maybe this Mary get it out my mind
Feels so right, yeah, yeah, yeah, ooh
And these pills don't cut the passion
'Cause your dose stronger than average
Yeah, you're supposed to be mine
We should be something we can define
