

# Floods

Lucky Daye

Babe, say somethin', we should be ashamed  
Don't say names, I don't wanna know  
No care for the blame games  
Watch it fall, fall, fall  
Can't hit me when you rain so loud  
Flood away

Speak into the mic, baby  
You can't seem to tell me what you need from me  
What make you wanna fight lately?  
So naive to believe you in it for us  
My emotions been straight up too long  
Lies get bogus, life's the focus, I know  
Stone cold

You make seasons change with no fair warning  
How you make seasons change without saying something? Oh  
All these reasons I give lead you to running  
Don't leave me out in the cold without my warm thang

Should've made you feel more important  
Now I'm up all night drinkin' poison  
'Til my thoughts are all distorted  
The only way I know to ignore it  
Tryna hide all the pain  
Just to go back to what it was for us  
'Nother bottle, I'm all poured out  
Flood, flood away

Speak into the mic, baby  
You can't seem to tell me what you need from me  
What make you wanna fight lately?  
So naive to believe you in it for us  
My emotions been straight up too long  
Lies get bogus, life's the focus, I know  
Stone cold

But you make seasons change with no fair warning  
How you make seasons change without saying something? Oh  
All these reasons I give lead you to running  
Don't leave me out in the cold without my warm thang

Why you got me fallin' just to spring up in the summer?  
When you wasn't really sure, givin' your love  
How I'm 'posed to know what you thought it was? (Yeah)  
Damn, damn, damn, damn  
Dice, when we roll, like dice when we roll, like dice  
Cold as ice and you know it, like ice when you know it, like ice (Like ice)

But you make seasons change with no fair warning  
How you make seasons change without saying something? Oh  
All these reasons I give lead you to running  
Don't leave me out in the cold without my warm thang

Don't leave me out in the cold  
Don't leave me out in...  
All this else I didn't know

Don't judge me for what I don't know  
Don't leave me out in the cold  
Don't leave me out in the cold  
Don't leave me out in the cold  
Don't leave me in the cold
