Lucky Daye

They say distance make the heart go fonder, faster, stronger
They say money make your pockets thicker, ego bigger

My summer's cold
Temperature's risin', it's overload
I been here before
What I'm tryna say is I can't be without you another day
I want you to stay

You know I'll be close by, drop a pin
You know that I'll go low, why so high? Just drop the pin
Yeah
Tell me where you're goin'
Tell me where you're goin'
And I'm comin' strong
Girl, I'm comin' strong
Just tell me where we're goin'
I been holdin' on
And I'm comin' strong
Don't sweet talk yet, you're early

They say time is everything, I'm in a hurry
It's getting deep, up to my knee, beneath the surface

My summer's cold
Temperature's risin', it's overload
I been here before
What I'm tryna say is I can't be without you another day
I want you to stay

You know I'll be close by, drop a pin
You know that I'll go low, why so high? Just drop the pin
Yeah
Tell me where you're goin'
Tell me where you're goin'
And I'm comin' strong
Girl, I'm comin' strong
Just tell me where we're goin'
I been holdin' on
And I'm comin' strong
Don't sweet talk yet, you're early

You know I'll be close by, drop a pin
You know that I'll go low, why so high? Just drop the pin
Yeah
Tell me where you're goin'
Tell me where you're goin'
And I'm comin' strong
Girl, I'm comin' strong
Just tell me where we're goin'
I been holdin' on
And I'm comin' strong
Don't sweet talk yet, you're early
