

# Think Different

Lucky Daye

Girls like fuck boys  
Boys is just fuck toys  
Scream, hear white noise  
Dark moon, Pink Floyd  
Grass is greener next door  
Ex, ex, explore  
Next flex expect more  
Grass is greener

Flex  
Hope you got what you came for  
Losin' love, playin' Love Jones  
Where do we go? Hell if I know  
Talk yo' shit, talk yo' shit

And I know you'll expect guys like me to let you run out  
You gonna find out you found your real one that's true, hold you down

I, I need you to think different  
Think different, think bigger  
When it comes to us, I need you to think different  
Think different  
'Cause you don't know what you missin'

Girls like fuck boys  
Boys is just fuck toys

Grass is greener

Two shots, let's skip dramatics  
Connect it with no static  
Just know that I won't steer you wrong  
Don't believe me still, don't make it a habit

And I know you'll expect guys like me to let you run out  
You gonna find out you found your real one that's true, hold you down

I, I need you to think different  
Think different, think bigger  
When it comes to us, I need you to think different  
Think different  
'Cause you don't know what you missin', ooh

Think bigger, think different, think different  
When it comes to us, I need you to think different  
Think bigger  
'Cause you don't know what you missin', no

Think different, think bigger  
When it comes to you, I need you-
