

Try Your Fire

Lucky Daye

Baby, you're hot, a fox
You're hard to get to
But put your name on me, you own it
What you do, it's true
Leave ya, I need to
Make you my duty, if you want it

So tell me everything you gon' say
I'ma make it anyway if we don't play
Your body suggest, remember how you touch me?
I put this dick to you, bet you behave, babe (Yeah)
Just don't leave me guessin'
I'm out in the corner where you left me
Been waitin' on you like you a blessing
Want you the long way

Can I get into to you?
Can I give you the truth? You my saving light
I'm talkin' long time
Yeah, that's how it is
The further I get away from you, I lose the light
Don't make me try your fire before you
Let me take you mama
Can you bring me home and have some fun with me?
Don't make me try your fire before you
Let me take you mama
Can you bring me home and have some fun with me?
Don't make me try your fire

What's your name? I see you forgot
You wanna play so you don't say
Come turn your hips on mine and spin me on
If he did it, and I'm not
Don't try to help it, just actin' selfish
That's just not something we may not finish, ooh-ooh, ooh-ooh

So tell me everything you gon' say
I'ma make it anyway if we don't play
Your body suggest, remember how you touch me?
I put this dick to you, bet you behave, babe (Yeah)
Just don't leave me guessin'
I'm out in the corner where you left me
Been waitin' on you like you a blessing
Want you the long way

Can I give it to you?
Can I get into truth? You my saving light
I'm talkin' long time
Yeah, that's how it is
The further I get away from you, I lose the light
Don't make me try your fire before you
Let me take you, mama
Can you bring me home and have some fun with me?
Don't make me try your fire before you
Let me take you, mama
Can you bring me home and have some fun with me?
Don't make me try your fire

La-la, la, la-la, la-la, la, la-la, ooh-ooh
Don't make me try your fire before you
La-la, la, la-la, la-la, la, la-la, ooh-ooh

Can I give it to you?
Can I get into truth? You my saving light
I'm talkin' long time
Yeah, that's how it is
The further I get away from you, I lose the light
Don't make me try your fire before you
Let me take you, mama
Can you bring me home and have some fun with me?
Don't make me try your fire before you
Let me take you, mama
Can you bring me home and have some fun with me?
Don't make me try your fire
