

Run With Me

Lucy Angel

Boy, I've got restless in my soul
An untamed heart that's used to letting go
Never been one for standin' still,
I know it won't be very long until
I'm gonna chase that setting sun
Oh but this time when I run
I want you to...

Run with me,
Baby lets make our big getaway
Like a couple of bandits who robbed a train
Racing the law down a desert two lane
There's a world to see
And nothin' here to slow us down
I've got the keys and a shotgun seat
Baby run, run with me

There's ocean's waves to sail across
Mountains to climb where we can stand on top
There's places still untouched by time
There's long lost treasures left for us to find

Life is waiting for us now
Just beyond this little town

Run with me,
Let make our big getaway
Like a couple of bandits who robbed a train
Racing the law down a desert two lane
There's a world to see
And nothin' here to slow us down
I've got the keys and a shotgun seat, baby run
Run with me

Right beside me
Wherever that roads leads
All the way, all the way

Run with me,
Let make our big getaway
Like a couple of bandits who robbed a train
Racing the law down a desert two lane
There's a world to see
And nothin' here to slow us down
I've got the keys and a shotgun seat, baby run
Run with me
