

# Talk

Lucy Dacus

[Verse 1]

Driving up the mountain  
Ears popping as we climb  
It can be risky after sundown  
When the roads turn serpentine  
We run out of conversation  
Day runs out of light  
Silent, watching high beams  
Interrupt the night  
Oooh  
Oooh

[Chorus]

Why can't we talk anymore?  
We used to talk for hours  
Do I make you nervous or bored?  
Or did I drink you to the last drop?

[Verse 2]

Your body looming like a spectre  
Hungry as a scythe  
If you come reaping, I'll come running  
I still know what you like  
But just like they say  
That you can never go home  
I could not love you the same way  
Two days in a row  
Oooh  
Oooh

[Chorus]

Why can't we talk anymore?  
We used to talk for hours  
Do I make you nervous or bored?  
Or did I drink you to the last drop?

[Bridge]

Why was our best sex in hotels  
And our worst fights  
In their stairwells?  
I was by your side, eye to eye  
When you thought you were  
Living in a private hell

[Outro]

I didn't mean to start  
Talking in the past tense  
I guess I don't know what I think  
'Til I start talking
