

Timefighter

Lucy Dacus

And I'll get old
And I'll get tired
And I won't run
Into the water
You gotta let me go down
Will you remember me as I am now?

And I know you're strong
I know you're a manmade fortress
But we're alone
And I'm so willing to be proven wrong

And I fight time
It won in a landslide
I'm just as good as anybody
I'm just as bad as anybody

You talk like you know the walls are thin
And I don't mind if you don't mind me listening
And I'm tired of all these wires
If I go far enough
Will they not follow us?

And I fight time
It won in a landslide
I'm just as good as anybody
I'm just as bad as anybody

And I fight time
It won in a landslide
I'm just as good as anybody
I'm just as bad as anybody
