

# My Little Black Wedding Dress

Lucy Hale

It's been a while since I've reached for that wedding dress  
The one I always liked to wear, a girl's just gotta look her best  
It's a timeless classic, basic cut  
Some things just stay in style  
Perfect for that special day and it looks so good going down the aisle  
I'm ushered in, I take my place on the bride's side of the church

And it fits me like a glove, holds me just tight enough  
It's nothing new, but it still turns heads  
My little black wedding dress  
My little black wedding dress

It's been dry-  
cleaned for tears of joy and a champagne toast or two  
Posed for pictures and never missed a dance with the best man and the groom  
The organ starts, no wedding march  
We stand and spin around

And it fits me like a glove, holds me just tight enough  
It's nothing new, but it still turns heads  
My little black wedding dress  
My little black wedding dress

Wish I'd never bought it as I'm hanging it in the closet  
What I wouldn't give tonight to trade it in for one that's white

And fits me like a glove, holds me just tight enough  
But until then, it's just me, I guess  
And my little black wedding dress
