

# Runaway Circus

Lucy Hale

We thought we were the greatest show on earth  
Two kids running around kicking up dirt  
Falling, flying, big top loving in a little old town  
When you're high-wire walking, don't you dare look down  
And tease the lions

Oh, you toss love around like a juggling act  
Oh, you put your heart in a cannon and you didn't look back  
Just when I thought I had heaven one day  
Just like that heaven was packed and gone away  
All you left was a field of dust, you runaway circus

You talked me into a ticket for two,  
Played with my heart for a grandstand view  
But the star attraction was smoke and magic

Oh, you toss love around like a juggling act  
Oh, you put your heart in a cannon and you didn't look back  
Just when I thought I had heaven one day  
Just like that heaven was packed and gone away  
All you left was a field of dust, you runaway circus

You runaway circus

Oh  
Oh

Oh, you toss love around like a juggling act  
Oh, you put your heart in a cannon and you didn't look back  
Just when I thought I had heaven one day  
Just like that heaven was packed and gone away  
All you left was a field of dust, you runaway circus

You runaway circus  
You runaway circus
