You Sound Good to Me

Lucy Hale

```
C                                F
Full moon is shining like a spotlight,
      C                                           F
Yeah, I could just sit and listen to you talking all night.
        C                              F
When you whisper, yeah, baby, when you lean in.
        C                            F
Yeah, I get a crazy, crazy good kinda felling.

It's like:
C
Amen, from the back of the choir,
F
Sweet home of freedom underneath the tires.
C
Kick back sitting by a crackling fire,
F
Strumming them guitar strings.

And like:
C
An old song on the radio,
F
That you grew up too and everybody knows.
C
Pushing through the water when the river rose,
F
Winding, wild and free.
C
Baby, You Sound Good To Me.
F
Baby, You Sound So Good To Me.
C
Mmmh, Mmmh, Mmmh, like a melody.
F
Baby, You Sound Good To Me.
C                    F
Tell me all of your stories,
                C
And don't you leave nothing out 'cause, baby,
            F
I ain't in a hurry.
              C
Every little thing you say
       F
got a real nice ring to it.
C
The way it rolls off your lips,
      F
And, oh, when you give me that kiss.

It's like:
C
Amen, from the back of the choir,
F
Sweet home of freedom underneath the tires.
