

Light As Grass

Lucy Rose

Come find me in discomfort
Light me up and put me out
Can you read my mind
Let me in on all of you
It can't be this hard all the time
Can't forget the truth

Cause I saw you
Light as grass
Floating high above the atmosphere
And I saw you
Falling fast
Quietly hiding from reality

Hold me up and tear me down
I lost track of the certainties
Evaporate this calm
Never knew the doubt I feel
You'd never understand its pain
Do you know me well

Cause I saw you
Light as grass
Floating high above the atmosphere
And I saw you
Falling fast
Quietly hiding from reality

Cause I am me and you are you
Well there's a greatness in our view
I saw the future in your eyes
Don't confuse the thoughts inside
Cause I saw you

Saw you
Saw you
Saw you
Saw you

And I saw you

Saw you
Saw you
Saw you
Saw you

I saw you

Saw you
Saw you
Saw you
Saw you

You

Saw you
Saw you

Saw you
Saw you
