

# Over When It's Over

Lucy Rose

Can you believe it  
The mess we got into  
It was so easy  
Betrayal don't taste so good  
Everyone got a  
Story they have to tell  
Well finding the truth  
A skill unto its self

It ain't over till we say it's over  
And it ain't over  
Not even close, yeah  
Darling I hear that things got hard  
I'm sorry  
But it ain't over  
Not till it's over

Don't you believe me  
Well I told you straight from straight  
What you perceiving  
Well I wish that it could change  
We've seen a lot  
We've been a lot  
I needed change  
Fear you not  
Here we are  
Standing tall  
Wanting better  
For our latter

It ain't over till we say it's over  
And it ain't over  
Not even close, yeah  
Darling I hear that things got hard  
I'm sorry  
But it ain't over  
Not till it's over

Not till it's over

It ain't over till we say it's over  
And it ain't over  
Not even close, yeah  
Darling I hear that things got hard  
I'm sorry  
But it ain't over  
Not till it's over

Find our way through  
Not till it's over  
Find our way through  
Find our way through  
Not till it's over  
Find our way through

Find our way through  
Not till it's over

Find our way through  
Find our way through  
Not till it's over  
Find our way through
