

## Red Face

Lucy Rose

I don't care  
What the people may say  
Cause it's just the sun  
Rising again

So I'll take a trip  
To the back of my mind  
See what is there  
What will I find

Cause you've got trouble searching for you  
And you said: "everything will be the same"  
Look here, everything is gonna change  
And you said: "it's what i needed"  
I don't believe it

I don't care  
What the people may say  
Cause it's just the sun  
Rising again

So I'll take a trip  
To the back of my mind  
See what is there  
What will I find

Cause you've got trouble searching for you  
And you said: "everything will be the same"  
Look here, everything is gonna change  
And you said: "it's what i needed"  
I don't believe it

Take what you wanted  
Leave what you didn't need
