

The Racket

Lucy Rose

I said thank you thank you thank you thank you
For loving me
I've been searching every minute of life
For what you give me
Cause if I'm real honest and you know it
It's not always breezy

Took it for granted
Life ain't always what you were handed
Don't be so easily offended
There's somethings I learnt to live with cause somethings can't
be changed

Cause I make the most of a bad occasion
Without much choice
Cause I'm still picking up the racket
And I hit the ball

As the white feather begins to fall down
Heaven is near
And I wonder if you're out there listening
Forgiveness is real

Took it for granted
Life ain't always what you were handed
Don't be so easily offended
There's somethings I learnt to live with cause somethings can't
be changed

No you can't break me down
I won't let you bring me down
Take a deep breath
