What Does It Take

Lucy Rose

What does it take to break a man
Well I should've known
Love don't leave, love don't leave
I was wrong in the end

And what does it take to break a woman
Well you should've known
You say love don't leave, love don't leave
I was wrong in the end

So take this old and beaten heart
Make it strong and make it stop
So take this old and beaten heart
Make it strong and make it stop
For me

'Cause I'm still looking for
That sweet melody
That could bring you back to me
That could bring you back to me
That could bring you back to me
Won't you please come back to me

But what does it take to break a man
Well I should've known
