

Rain City

Lucy Schwartz

This city's always raining
When you haven't got a coat
I once was a grand pianist
But I can't recall a note

And it just keeps going round and round
I'm stuck in a cycle and I can't get out
My head is all turned upside down
Stuck in a cycle and I can't get out

Since you left me
It's been rain city

Last night I swore I saw you
Across a crowded hall
I ran like mad to catch you
Just to realize it wasn't you at all

And it just keeps going round and round
I'm stuck in a cycle and I can't get out
My head is all turned upside down
Stuck in a cycle and I can't get out

Since you left me
It's been rain city

Wake up to find my left side is right
My body is inside out
Lift my feet up but they're taking me down
My body is inside out

Just keeps going round and round
I'm stuck in a cycle and I can't get out
Just keeps going round and round
And round round round round

Since you left me
It's been rain city
