

Lightning

Lucy Spraggan

I'd like my funeral before I die
Have my friends stand side by side
Tell our stories around a fire
Then party on til the morning light

If I get struck down tomorrow well then let that be my fate
But you make sure that they play this at my wake

Light up the sky with lightning
We ain't afraid of thunder
Light up the sky with lightning
We were born to wonder
Be brave, don't be afraid
It's time to dance in the pouring rain
And light up the sky with lightning

If you don't take moments to be yourself
You'll spend your life being someone else
Think of all those feelings that you never felt
It's more than ok to ask for help

If you get struck down tomorrow
Well then let that be your fate
And you make sure that they play this at your wake

Light up the sky with lightning
We ain't afraid of thunder
Light up the sky with lightning
We were born to wonder
Be brave, don't be afraid
It's time to dance in the pouring rain
And light up the sky with lightning

Light up the sky with lightning
We ain't afraid of thunder
Light up the sky with lightning
We were born to wonder
Be brave, don't be afraid
It's time to dance in the pouring rain
And light up the sky with lightning

Light up the sky with lightning
We ain't afraid of thunder
Light up the sky with lightning
We were born to wonder
Be brave, don't be afraid
It's time to dance in the pouring rain
And light up the sky with lightning
