

'til death

Lucy Spraggan

There's something nice out,
you can kill me with just warm breath,
resuscitate me, with one step
And everytime you change your mind,
my mind loses half the time,
and everytime you feel the same,
you put the blood back in my veins

Help me breath, you're all I see,
I need you, but you don't need me,
I'm the beat, I'm the key, you're all I see,
I love you, but you don't love me

Every word you say, causes me so deep,
I loose my sight, each time you speak,
And everytime you say you're mine,
my life loses half the time,
and everytime you feel the same,
you put the blood back in my veins

Help me breath, you're all I see,
I need you, but you don't need me,
I'm the beat, I'm the key, you're all I see,
I love you, but you don't love me

Look into my eyes, this can't be right,
this cannot be the end,
we have to fight this,
I'll give you the sun, keep it united,
this cannot be the end,
I've seen the light this time

Help me breath, you're all I see,
I need you, but you don't need me,
I'm the beat, I'm the key, you're all I see,
I love you, but you don't love me
