

Too Hot to Last

Lucy Woodward

Take it off and take me in
I am not your friend
It isn't hard to see the way this ends
But I'm dying to begin

Blame it on our past
Blame it on our circumstance
Say it sweet but say it fast
We're a fire too hot to last

I feel you feel me again
Sweating through your skin
I don't fear to lose, I don't hope to win
I just want you to give in

Blame it on our past
Blame it on our circumstance
Kiss me deep but kiss me fast
We're a fire too hot to last

We're a fire too hot to last
We're a fire too hot to last
We're a fire too hot to last
We're a fire too hot to last
