

# **Sway**

**Lufthaus**

Just sway  
Forget the passing trade  
We are naked and unafraid  
Just sway

Just sway  
The illusions disappear  
Seek solace in the silence here  
And just sway  
Just sway

Just sway  
You've lived a million lives  
Feel the warmth, the friendly fires  
Release all known desires  
And just sway

Just sway  
You'll get nothing done by force  
But you'll try to  
Of course  
Let it go  
And just sway

You don't have the seize the day  
Let your beautiful mind be free and float away  
Just sway

Just sway  
Just sway  
Just sway  
Just sway  
Just sway  
Just sway
