

Body

Luh Kel

Usually I wouldn't do it
But you got me thinkin
Bout gettin in to it
And yea I be drinkin
But I still want you in
Inside my bed
No questioning
I wanna take it there

Tell me your on your way
Impatient, don't make me wait
Working overtime nine to nine
Starting player, you're my top five
And I just need ya body on my body
Your body
My body
Over your body
You want it you got it
We ain't gotta tell nobody
It's my body
All over your body
It's our bodies
It's you or nobody else

Your body, my body
Girl, I love when you ride me
When you on top of me (yeah)
You and me got it
What we do solid
We ain't gotta tell nobody (yeah)
And I know all the feelings you feel
Girl I feel the same way when you here
Kiss ya legs all the way to ya ears
Baby I need ya body right here
Confide in you
Baby when I'm going through things I need someone to vent to
I won't lie to you
We can do things that we keep to our self
Confidential
Just give me an hour
I do things when you get out of the shower
Ya body my body it's ours
I know the spots that might make you scream louder
And louder and louder

Boy you know this pussy good
It ain't gon eat itself
And you know I hate to be alone, I need ya help
(Mmhm)
Memories how I missed the way it felt
Kiss on you while I drip on you
You do my body so well

Tell me you're on your way
Impatient, don't make me wait
Working overtime nine to nine
Starting player, you're my top five

And I just need ya body on my body
Your body
My body
Over your body
You want it, you got it
We ain't gotta tell nobody
It's my body
All over your body
It's our bodies
It's you or nobody else
