

# Change For You

Luh Kel

I used to not care about your thought, I was lost and living wrong  
It's just something 'bout the things you do it make me numb  
I know what I want girl I'm tired of riding these sad songs  
Don't know what I'll do if you choose that you gone let me go

'Cause I've heard that before and that's no what I want  
This ain't no episode but it play on and on  
You told me you was done and that you moving on  
I told you I'm 'a change but I'll let you decide

I'm not like those guys that you're used to  
Give me a minute so I can show you  
We all got a past but I can prove to you  
Just wanna last with you I ain't the same no more  
No more I know your hearts gone  
So baby I change for you  
You you you you you

I used to ride 'round with hoes now I don't even want 'em 'round  
Girl you my queen the only thing we drink is ice and crown  
Just wanna be home with you not at no club or in no lounge  
You forgave me for the shit I did so how could I let you down

You got my heart up in the sky it's on a incline  
(So high)  
You asked me if I loved you and I didn't deny it  
You gave me soul ties I feel our souls is combined  
(Can't lie)  
Feel like I can fuck the world up girl with your alliance

Why would I fuck this up for just five minutes I wouldn't even try it  
Told you I wanted you forever but you ain't even buy  
Your love make me feel like I'm in the sky and I'm still rising  
You gave me feelings in my heart that I can't even describe it  
Yeah

And I can't even fight it  
The type of bitch that love love her favorite color violet  
Ain't like them hoes she introvertic come around keep her quiet  
Her hearts as cold as ice  
Pussy wet as dasani

No more I know your hearts gone  
So baby I change for you  
You you you you you  
Our love I will never postpone baby I change for you  
You you you you you

I'm not like those guys that you're used to  
Give me a minute so I can show you  
We all got a past but I can prove to you  
Just wanna last with you I ain't the same no more  
No more I know your hearts gone  
So baby I change for you  
You you you you you
