

Had to let go of what I want had to focus on what I need
Had to turn off all my phones my life been on DND
Thought I was in love, had to let her go, she wasn't the one for me
You don't know how it feels to walk around with anxiety
You don't know how it feels to be all alone I ain't got no friends
I done been through too much I've been out of love, shit play in my head
Working hard this shit ain't come over night now we counting up a hundred bands
Just trynna make sure I'm living right
Walk around God holding my hand

We fell under, we gotta resurface
We was out for a while we in service now
Ain't tripping off shit don't concern us
Now we hitting the mall putting purchase down
Been dealing with shit that's internal
But it's alright I'm good I can work it out
On top we just scratching the surface
This shit all in my head don't write verses down
I'm trynna get to the top, I know it's a lot but I gotta prevail
I know it's gone take some time, got mark on my mind but he stuck in a cell
They didn't believe in me niggas show jealousy I really don't know who real
My mind on a different earth I know I'm a introvert I'd rather stay to myself

Had to let go of what I want had to focus on what I need
Had to turn off all my phones my life been on DND
Thought I was in love, had to let her go, she wasn't the one for me
You don't know how it feels to walk around with anxiety
You don't know how it feels to be all alone I ain't got no friends
I done been through too much I've been out of love, shit play in my head
Working hard this shit ain't come over night now we counting up a hundred bands
Just trynna make sure I'm living right
Walk around God holding my hand

Walk around God me holding my hand I got all these bands I know I can't panic
Take a ride down to memory lane, thinking bout the love I got for my granny
Look at me now I got all these chains, and fans, this shit feeling heavy
Used to dream that one day I would make it
Used to dream of a wall full of plaques now it's plenty
She know that I'm blunt I don't care, she offended
I want my name to be called at the Grammys
Don't come around with no hidden agenda
She cut me off and now I'm in my feelings
Turn my phone off, don't wanna get calls
In my thoughts I'm on a whole 'nother planet
I gave my all trynna put on the bros
It broke my heart when I saw they was jealous

Had to let go of what I want had to focus on what I need
Had to turn off all my phones my life been on DND
Thought I was in love, had to let her go, she wasn't the one for me
You don't know how it feels to walk around with anxiety
You don't know how it feels to be all alone I ain't got no friends
I done been through too much I've been out of love, shit play in my head

Working hard this shit ain't come over night now we counting up a hundred bands
Just trynna make sure I'm living right
Walk around God holding my hand
