

Gone

Luh Kel

No no no no no no
No no no no no no no no

I bought you gifts to make you happy
Hoping that you would like it
Want your attention shawty listen you ain't just gotta fight it
Girl for no reason I be deep in every time I'm inside it
Don't come around girl I be down
But seeing you I'm excited
No guidance
Thinking one day girl we can chill in the islands
Can't stay whole flight
Cause we gon mess with the pilot
But we be so high
So then we just get defiant
When it all balls down
I feel like she be lying
Girl we be gone
She hit my phone
She left me alone
Like bae what you on
Baby what you on
Girl just let me know
Baby what you want
I'm a what you want
Yea yea I'm knowing that she hip though
She came through
Gucci slides with a tip toe
We tip toe
Send out shots then we dip out
She got on shell toes
What you call me Kel for
Ohh
She hit my line up all the time
Want me to change her life
I be so high up in the sky
I had to learn to fly
Girl leave that nigga fly with me
Quit trynna make things right

I bought you gifts to make you happy
Hoping that you would like it
Want your attention shawty listen you ain't just gotta fight it
Girl for no reason I be deep in every time I'm inside it
Don't come around girl I be down
But seeing you I'm excited
No guidance
Thinking one day girl we can chill in the islands
Can't stay whole flight
Cause we gon mess with the pilot
But we be so high
So then we just get to flying
When it all balls down
I feel like she be lying
Girl we be gone

She hit my phone

And I get to replying baby
I can't leave you lone
There's something different from these women that you carry from your own
And you gon stay up out the mix
Because you love to be alone
Baby tell me where you at
I might take a flight
Just for the night
To get you back
You know all my love
Is very endless for a fact
Sorry what I done
But I was done up in the past
I can give you love
Only if you could get you back
I bought you gifts to make you smile to show you that I was different
You hurt my heart and left it broke
You don't know what you been missing
I get these feelings in my body that I hate that I live with
We got some memories together and it's hard to forget it
I get it

I bought you gifts to make you happy
Hoping that you would like it
Want your attention shawty listen you ain't just gotta fight it
Girl for no reason I be deep in every time I'm inside it
Don't come around girl I be down
But seeing you I'm excited
No guidance
Thinking one day girl we can chill in the islands
Can't stay whole flight
Cause we gon mess with the pilot
But we be so high
So then we just get to flying
Went in her balls down
I feel like she be lying
Girl we be gone
