

Lonely

Luh Kel

Girl you took my heart and it's too late to get it back
Let go the leggo play doh stuck like glue it's too attached
When I told you that I loved you girl you knew that's a fact
Everybody deals with problems but we can't trip off that
I'm trying to get your heart but bae I know that that's a slow
grind
I'll trade you half of yours for half of mine if you don't mind
We can't never ever end cause we just in our prime
I feel I'm needing you I can't see you through I feel like I'm
blind

Never go never leave
Keep me close keep me company
Never go never leave
Leave me lonely
I'm not gonna ever go I'm not gonna ever leave
Imma just keep you close and keep you company
I'm not gonna ever go I'm not gonna ever leave
Leave you lonely
I'm gonna ever go I'm not gonna ever leave
Imma just keep you close and keep you company
I'm not gonna ever go I'm not gonna ever leave
Leave you lonely
Just keep me company and I'll keep you right by my side
All of my past relationships wasn't workin' lost my mind
Told me never focus on the past I swear I'm trying
I lost my senses now its hard to tell the truth right from the
lie
Whoa whoa whoa whoa whoa whoa whoa

Never go never leave
Keep me close keep me company
Never go never leave
Leave me lonely
I'm not gonna ever go I'm not gonna ever leave
Imma just keep you close and keep you company
I'm not gonna ever go I'm not gonna ever leave
Leave you lonely
I'm gonna ever go I'm not gonna ever leave
Imma just keep you close and keep you company
I'm not gonna ever go I'm not gonna ever leave
Leave you lonely
