

## Missing Ur Love

Luh Kel

I thought that I could go through this life without you right here next to me  
Now I realized that I need you, and you gone it's hard to breathe  
I tried to call you and decline instead you just let the phone ring  
Don't say it's too late, we can go back to the way it used to be  
When I sit to myself I get to thinking bout how I got no one else  
Girl what's the deal, like when I tell you how I feel seem you don't care  
You with someone else, so that's a pain that I would always see me to feel  
Can't let you go 'cause girl I know that I'll be missing your love  
Be missing your love  
Be missing your love  
I feel you my medicine when you gone it's not helping me  
I be missing your love

Hold me, girl I need you hold me even if it's for a moment  
Girl You told me that you love me so show it feel my heart had got stolen  
Been living life fast, I been going through some pain  
I might need a cast 'cause my heart got sprain  
You told me you done and I took all the blame  
It is what it is you ain't gotta explain  
Love is a feeling I wanted to dodge  
You made me wanna beat all the odds  
I need something quick that can clear out my mind  
Cause I get alone and I think of Semaj  
Letting it go for some time, I done tried  
You all that I knew you was all that I got  
Through all the years we created a bond  
We shared us a kid and we had us a son  
I'm in my bed it's been a couple days now  
Stuck in my head and I can't seem to crawl out  
That hole I'm in, I wish I had another way out

I thought that I could go through this life without you right here next to me  
Now I realized that I need you, and you gone it's hard to breathe  
I tried to call you and decline instead you just let the phone ring  
Don't say it's too late, we can go back to the way it used to be
