

Next To Me

Luh Kel

I can't breathe when you next to me
I keep checking my phone if you texting me
Give me your heart for the rest of me
I give you more not the less of me
When you come around girl I suffocate
Thinking 'bout all these words but it's nothing to say
My heart start to racing let's runs away
Hop off ya feet and baby run with me

What you on tonight?
I Just brought some roses
To put across the bed
And it's dim by the candle light
Miss all them many nights
When you was right there
You got me thinking twice
Put your money on me
Girl I got you baby
What you scared for roll the dice
Baby just roll the dice
50 racks all in yo bag
I be deep in when I beat it up
Kiss from yo toes to yo head
You fall asleep you might not see tomorrow
I got you sleepy, girl turn off the tv
Just show me you need me
When you gone I can't breathe

I can't breathe when you next to me
I keep checking my phone if you texting me
Give me your heart for the rest of me
I give you more not the less of me
When you come around girl I suffocate
Thinking 'bout all these words but it's nothing to say
My heart start to racing let's runs away
Hop off ya feet and baby run with me

I know you like what you see
Come fuck with me
Baby come fuck with me
Fall in love with me
Can't get enough of me
I need recovery
Leave from the club with me
Sleep then wake up to me
Just put your trust in me
Go out on a date, come get lunch with me
I told you you good if you fuck with me

I can't breathe when you next to me
I keep checking my phone if you texting me
Give me your heart for the rest of me
I give you more not the less of me
When you come around girl I suffocate
Thinking 'bout all these words but it's nothing to say
My heart start to racing let's runs away
Hop off ya feet and baby run with me
