

# Promise

Luh Kel

Please

If I leave, promise you will wait for me  
'Cause I ain't used to having people next to me  
I'm too used to people coming so they can leave  
Standing by your side is where I wanna be

Please wait for me, just say with me, oh  
You true to me, the blue to me, oh  
I don't know what you do to me, it's fooling me, oh  
Just wait for me and stay with me, oh

Please

If I leave, promise you will wait for me  
'Cause I ain't used to having people next to me  
I'm too used to people coming so they can leave  
Standing by your side is where I wanna be

Please wait for me, just say with me, oh
