

Real

Luh Kel

Oh, oh

I always feel like I'm losin'

I feel like I'm losin', it feel like I'm losin'

Ain't been in the mood, feelin' like you been chosin'

Ain't been feelin' you, the way you been movin'

Can't be no excuses, no makin' excuses

If you pick me

I can make it right (I can make it right)

And girl I don't got a reason (I don't got a reason)

For every time we fight

But I promise that I won't hurt you

And baby I won't break your heart

And girl I know you're hurtin' too

So baby let me heal your scars

And let me reimburse you

Girl you give somethin' to talk about, what you will never prove

Anything you need, girl I got you (Oh)

I feel so good when I'm around you (Oh)

Everything be different girl without you (Oh, oh)

Round one but workin' on the round two (Oh, oh)

Put me in the sky and I'm floatin' (Floatin')

I feel like you the one, girl you chosen

I be fallin' in every emotion, like baby come give me a dozen

Don't waste my time, yeah (My time)

Don't even try, yeah (Even try)

Girl take some time, yeah (Some time)

Just ease your mind, yeah (Your mind)

And you a vibe

Say how you feel for me, show me you real with me

Just tryna vibe

Say how you feel for me, show me you real with me

Don't waste my time, yeah (My time)

Don't even try, yeah (Even try)

Girl take some time, yeah (Some time)

Just ease your mind, yeah (Your mind)

And you a vibe

Say how you feel for me, show me you real with me

Just tryna vibe

Say how you feel for me, show me you real with me

Please

Give me love 'cause that's somethin' that I need

I'm tryna get to you but my heart been on E

I put my all in you

My aura has fallin' through

Don't waste my time, yeah (My time)

Don't even try, yeah (Even try)

Girl take some time, yeah (Some time)

Just ease your mind, yeah (Your mind)

And you a vibe

Say how you feel for me, show me you real with me
