

No, we ain't gotta talk, baby, just think about it
I'm doin' everything in my power to keep you smilin'
And I know sometimes you miss me but, bae, I'm just grindin'
I'm tryin' to lift you off your feet, in the sky like a pilot

Trip, trip, trip, I'm tryna take you on it
L-O-V-E, lovin' you, I'm lovin' all these silly moments
Hold you close, babe, while I kiss you slowly
With you, babe, I'm far from lonely
Lovin' when you all up on me

And ain't no pressure, baby, I just need some help
When I'm with you I feel different, it feel like a spell
And it was a whole hour, and they say love kills
I know you true, I know you special, and I know you real
We argue, make it right, and in the night we fuss
Sometimes you mad and sad, but you still think of us
You say you not gon' make it out well, baby, try your luck
I know you still gon' call on me 'cause, baby, that's a must

Trip, trip, trip, I'm tryna take you on it
L-O-V-E, lovin' you, I'm lovin' all these silly moments
Hold you close, babe, while I kiss you slowly
With you, baby, I'm far from lonely
Lovin' when you all up on me

I can be your doctor, baby, let me heal these holes in your heart
Let me touch your body, baby, better when we love in the dark
And when you leave me, baby, I be trippin', can't be apart
Take a trip overseas, you say the ocean head all your scars

And ain't no pressure, baby, I just need some help
When I'm with you I feel different, it feel like a spell
And it was a whole hour, and they say love kills
I know you true, I know you special, and I know you real
We argue, make it right, and in the night we fuss
Sometimes you mad and sad, but you still think of us
You say you not gon' make it out well, baby, try your luck
I know you still gon' call on me 'cause, baby, that's a must

Trip, trip, trip, I'm tryna take you on it
L-O-V-E, lovin' you, I'm lovin' all these silly moments
Hold you close, babe, while I kiss you slowly
With you, babe, I'm far from lonely
Lovin' when you all up on me
