

# What U Do

Luh Kel

This is what you do  
This is what you do  
Yeah, this is what you do

I ain't never met nobody in this world that look like you (Ooo)  
I think I'm in a dream 'cause I can't believe this true (Yeah)  
We argue, fuss and fight but just know we gone push it through  
You got my heart, my body and my mind  
This what you make me do

You make me wanna leave the one I'm with  
Start a new relationship with you  
'Cause this is what you do  
You take my mind, my heart, my body  
And you take control  
You do, you do  
You make me wanna leave the one I'm with  
Start a relationship with you  
'Cause this is what you do  
You take my mind, my heart, my body  
And you take control  
You do, you do

Uh, I lost control of all my body 'cause you took my mind (Yeah)  
I know you think of the past but you gone be just fine  
I can't see myself with nobody else  
Might as well be blind  
Divide 'em like a fraction  
Girl I'm 'bout that action, no (Yeah)  
And you know that I'ma ride for you  
Know that I'ma grind for you, no  
You make me wanna leave the one I'm with

Uh, you make me wanna leave the one I'm with  
Start a new relationship with you  
'Cause this is what you do  
You take my mind, my heart, my body  
And you take control  
You do, you do  
You make me wanna leave the one I'm with  
Start a relationship with you  
'Cause this is what you do  
You take my mind, my heart, my body  
And you take control  
You do, you do

You make me wanna leave the one I'm with  
Start a new relationship
