

Wrong 2

Luh Kel

Girl, you was here before my car would start
Now we' together we can't be apart
Girl, that's impossible ocean so tropical
Been through the obstacles we raised the bar
Your love magnetic you got me attached
I meant what I said don't stab me in the back
Been through the pain walked through puddles of rain
Girl, it ain't been the same girl I'm needing you back

Don't do me wrong, I done been done wrong
You did me wrong, you did me wrong
I'm just trying to move on, but you did me wrong
You did me wrong...

All by my side, you hurt me, should have read all the signs
I can't trust you gave too many times
Feel like I'm okay, but I know that I'm tired
Girl, I meant it, I said I was done
I need the one for me, can't settle for none
I gave you my all but you messed up my trust
I wish I could delete the memories of us

You use to ride like a taxi
Gave you love, I just thought that you would match me
Finding love I can't put this shit past me
Can't give out my feelings no more I'm too empty
You lost the key to my heart I can't make me no more cuz I don'
t really keep me a spare
I thought you was different the feelings was rare
I ain't searching for love if I can't find you there

Girl, you was here before my car would start
Now we' together we can't be apart
Girl, that's impossible ocean so tropical
Been through the obstacles we raised the bar
Your love magnetic you got me attached
I meant what I said don't stab me in the back
Been through the pain walked through puddles of rain
Girl, it ain't been the same girl I'm needing you back

Don't do me wrong, I done been done wrong
You did me wrong, you did me wrong
I'm just trying to move on, but you did me wrong
You did me wrong...
