

Our Love

Luka Bloom

Here love
Take away my heart forever
Never fear love
We'll share the load together.

How was the frost upon the ground
And how was the snow
And how were the raging wind and rain
To know?

That our love
Is stronger than the stone
And our love
Would forever keep us warm
And our love
Is shelter in the storm
Our love
Our love

Here love
Take away my heart forever
Never fear love
We'll share the load together.

How were the singing birds
And how was the rose
And how were the farmers in the fields
To know?

That our love
Sings the sweetest song of all
And our love
Is the sweetest scent of all
And our love
Is the greatest food of all
Our love
Our love
