

Rainbow Day

Luka Bloom

I want a simple life
Try to be a good man
Never want to hurt nobody
Tread lightly on the land
I forget about the future
Squeeze the juice out of the day
And when I feel unsure
That's when I like to pray

And if I find love along the way
If I find love, it's a rainbow day

Out among the creatures
I come into my own
I love to hide my little secrets
In the bushes and the stones
It's the simple pleasures
Always come back in the end
Like a night of sweet, sweet music
With my family and friends

And if I find love along the way
If I find love, it's a rainbow day
