

Never Change

Lukas Graham

If I'm being honest
Lately we're not ourselves
We're breaking the promise
To always be truthful 'til end
I'm overreacting
'Cause I wanna hear you yell
And get a reaction, some passion
To know it's not pretend

So many sorries I can't keep count
Don't leave me, don't let me down

I know it's hard, know we're afraid
Bend so far, but we never break
It's too good to ever walk away
When they all run, we fight to stay
It's bittersweet, but we love the taste
You're one thing I can't shake it
Sometimes I think we're both insane
But I hope to God we never change

If I'm being honest
I know I can take up space
Without even wanting
I'm sorry my head gets in the way
You're always so patient
But say what you need to say
I won't let us cave in
We'll make it
I know you feel the same

So many sorries I can't keep count
Don't leave me, don't let me down

I know it's hard, know we're afraid
Bend so far, but we never break
It's too good to ever walk away
When they all run, we fight to stay
It's bittersweet, but we love the taste
You're one thing I can't shake it
Sometimes I think we're both insane
But I hope to God we never change

Uh, change. Uh, change. Uh, change

So many sorries I can't keep count
Don't leave me, don't let me down

I know it's hard, know we're afraid
Bend so far, but we never break
It's too good to ever walk away
When they all run, we fight to stay
It's bittersweet, but we love the taste
You're one thing I can't shake it
Sometimes I think we're both insane
But I hope to God we never change

Uh, change. Uh, change. Uh, change
