

# One By One

Lukas Graham

Remember all my flaws and my mistakes  
Some of them I know are yours to make  
Remember me for who I was, who you want me to be  
Guess I'm afraid you might forget me easily

I'm fearful of the day  
When I will have to say goodbye  
'Cause I'm the one supposed to dry  
Those tears drops from your eyes  
Every day with you has been the best day of my life  
I'm sorry if I'm being sentimental tonight

But one by one by one we fade away  
Memories one by one by one they fade to grey  
We're here for every season  
'Til we're gone without a reason  
One by one by one we fade away

The more I live the less I really know  
I'll never be prepared to let you go  
One day you'll close the door  
I'll see that empty room of yours  
I'm just afraid you won't come back here anymore

I'm fearful of the day  
When I will have to say goodbye  
'Cause I'm the one supposed to dry  
Those tears drops from your eyes  
Every day with you has been the best day of my life  
I'm sorry if I'm being sentimental tonight

But one by one by one we fade away  
Memories one by one by one they fade to grey  
We're here for every season  
'Til we're gone without a reason  
One by one by one we fade away

One by one by one  
You know sometimes life goes by so fast  
One by one by one  
All these days and nights we won't get back  
One by one by one  
One day soon enough you'll understand  
One by one by one

That one by one by one  
One by one by one  
We fade away  
Memories one by one by one they fade to grey  
We're here for every season  
'Til we're gone without a reason  
One by one by one we fade away

One by one by one we fade away
